New Defibrillator at Ballyfin Old School

Official Name of Device - Automated External Defibrillator (AED)

(An AED is a portable device and can be used by anyone to help someone experiencing cardiac arrest)

A new state of the art defibrillator and cabinet have been installed at Ballyfin Old School. This Unit has been installed for the protection of patrons of Ballyfin Old School and Ballyfin Community Centre / Ballyfin Parish Hall.

A note about the Defibrillator.

The Cabinet containing the defibrillator is not locked and is available to use, instantly, at any time. When the cabinet door is opened an alarm sounds.

I would like if a number of local people would engage in a training / familiarization programme in the safe use of the Defibrillator. If a number of people come forward, I will organize suitable training -

To ensure that the defibrillator is always in working order and fit for purpose, it needs to be checked out on a regular basis. I would like if a kind local person would commit to looking after the unit on behalf of the Parish. I very much appreciate your help and co-operation.

Please contact me if you are interested in becoming involved in this project.
